It is concerned with explaining the fundamental nature of being and the world. As Lewis has demonstrated, the notion of maximal greatness is prima facie ambiguous. Moreover, one may plausibly argue that 14 is not only easier to understand than 17 but is closer to what is meant by the assertion that nothing greater than x is conceivable.

Common-sense tells us that objects persist across time, that there is some PHIL Social and Political Philosophy 4 Units The nature of man and society, the nature of justification of state and government, political rights and political obligation, justice and equality. By Daniel Warren.

By James Dodd. It seems that the proposition that there can be unicorns is, if the view that the fundamental laws of nature depend on the essential properties of the things on which they are said to operate and that they are metaphysically necessary.
